Overall Length:

15.500 inches

Overall Width:

2.150 inches

Material Thickness:

0.150 inches

End Application:

B1-bacft

Product Name:

Stiffener

Special Features:

Depth of stiffener (front to back) is 0.700 inches (nom); height of front lip is 0.600 inches (nom); thickness of front lip and base is 0.100 inches (nom)

Material:

Aluminum alloy 2024

Material Specification:

Ams-qq-250/4 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
