Overall Length:

20.0 inches

Overall Width:

1.0 inches

Material Thickness:

0.090 inches

End Application:

B-52 acft

Product Name:

Outboard splice angle

Aircraft Mission Design Series:

B52

Special Features:

Outboard splice angle; aft wheel well; next higher assembly 520-18822; penetrant inspect per mil-std-1907, grade (bac 5423 is mandatory for internal use by boeing and their cubcontractors.)

Material:

Aluminum alloy 7075

Material Specification:

Ams-qq-a-250/13 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
