Overall Length:

1.00 inches

Overall Width:

0.630 inches

Material Thickness:

0.180 inches

End Application:

Hh60 heli

Hole Quantity:

1

Product Name:

Bracket, structural component, aircraft

Aircraft Mission Design Series:

Hh60

Special Features:

Tab, trip edge; alternate material t651 per ams-qq-a-250/11; color is black

Material:

Aluminum alloy 6061

Material Specification:

Ams-qq-a-200/8 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiiq:

A11800
