Overall Length:

6.25 inches

Overall Width:

0.94 inches

Material Thickness:

0.063 inches

End Application:

Hh 60

Product Name:

Web, structural component, aircraft

Aircraft Location:

BI 34.5 beam

Aircraft Station Number:

BI 34.5 beam modification

Aircraft Mission Design Series:

Hh 60

Special Features:

B.L. 34.5 beam modifications; next assembly 9527-0001; used on m

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
