**Material Thickness:**

0.05 inches

**End Application:**

Leading edge access panels-instl assembly

**Side For Which Designed:**

Right side

**Aircraft Location:**

Leading edge

**Special Features:**

Heat treat t3

**Material Specification:**

Qq-a-250/4 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A11500
