Material Thickness:

0.05 inches

End Application:

Leading edge access panels-instl assembly

Side For Which Designed:

Right side

Aircraft Location:

Leading edge

Special Features:

Heat treat t3

Material Specification:

Qq-a-250/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11500
