Overall Length:

4.6 inches

Overall Width:

1.8 inches

Material Thickness:

0.040 inches

End Application:

B52

Product Name:

Bracket, structural component, aircraft

Aircraft Location:

Rib installatin rudder station 175.79

Aircraft Station Number:

Station 175.79

Aircraft Mission Design Series:

B-52

Special Features:

Horn angle; horn angle; rib installatin rudder station 175.79; 24-1703-2 is identical to 2-5031-3

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11800
