Overall Length:

52.0 inches

Overall Width:

2.0 inches

Material Thickness:

0.040 inches

End Application:

B52

Product Name:

Bracket, structural component, aircraft

Aircraft Location:

Rib installatin rudder station 130.46

Aircraft Station Number:

Station 130.46

Aircraft Mission Design Series:

B-52

Special Features:

Horn angle; horn angle; rib installatin rudder station 130.46

Material:

Aluminum alloy

Material Specification:

Qq-a-362 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11800
