Fabrication Method:

Forged

End Application:

C130

Product Name:

Fitting, structural component, aircraft

Aircraft Station Number:

162.78

Aircraft Mission Design Series:

C 130 acft

Special Features:

Drag angle; fitting-lower attach, wing to nacelle, ow sta 162.78 and 197.100; may be machined form 5.000 thk x 4 x 30, 7075-t7451 aluminum plate per ams 4050 when 390611-991 forging is not available. Vertical legs of part must be oriented arallel with the 5.000 plate thickness

Material:

Aluminum alloy 7075

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11800
