**General Description:**

Steel, mil-s-6736, comp 4130, d1m., 3.239 in. Nom o/a lg, 0.430 in. Min and 0.432 in. Maximum flange od, 0.337 in. Nom base od, 0.285 in. Nom tube od, 0.190 in. Nom id by 3.125 in. Lg, 10-32 unf class 2b internal threads on base 0.370 in. Lg, 14 slots 0.031 in. W, 0.094 1n. Deep equally spaced and staggered on top and bottom of tube within 0.780 in. Section 1.128 in. From right flange face, one jet orifice 0.052 in. Diameter drilled in tip on horizontal centerline, one jet orifice 0.040 in. Diameter drilled at 30.0 degrees angle above and below horizontal centerline 3.000 in. From flange face, mounting plate dim., 1.422 in.O/a lg, 0.750 1n. Wide, 0.100 in. Thick, two mounting holes drilled in plate, first hole 0.338 in. Dia, second hole 0.209 in. Diameter with 0.807 in. Min and 0.817 in. Maximum center to center distance between holes, plate marked no. 2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
