General Description:

Waluminum alloy, qq-a-250/4, comp 2024-t3 or t4, surface finish, anodized per mil-a-8625 type 1, no. 16437 gray, rubber mil-p-25732, gasket, aluminum alloy, qq-a-225/6, comp 2024-t4, pin, dim., 3.110 in. Dia, 0.032 in. Nom material thk, one hole 0.082 in. Diameter drilled through plate 1.437 in. Left of vertical centerline on horizontal centerline, one hole 0.156 in. Diameter drilled through plate 1.220 in. Left of vertical centerline, 3.120 in. Gasket od, 2.620 in. Id, 0.060 in. Material thk, one slot 0.140 in. Nom width cut through left of vertical centerline on the horizontal centerline, 0.160 in. Nom pin lg o/a, 0.123 in. Pin od by 0.115 in. Lg, 0.081 in. Nom od by 0.045 in. Lg pin right end, gasket is bonded to plate, baffle assembly used on dampener flutter, direct action

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
