General Description:

Aluminum alloy ww-t-785 or qq-a-268 body, steel, corrosion resisting qq-s-763 or ams5630 roller, passivated per hp4-8, heat treated to rockwell hardness c scale 55 to 59, polytetrafluoroethylene, reinforced liner, dim., 0.875 in. Nom body od, 1.400 in. Nom od crown radius, 0.4375 in. Min, 0.4385 in. Maximum id, 0.376 in. Min, 0.377 in. Maximum o/a w, max surface finish, left and right ends 32 microinches aa, all other surfaces 125 microinches aa, item used on hub assembly, main rotor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
