Landing Shock Absorption And Dissipation Method:

Air/oil shock strut

Design Type:

Nose gear

Aircraft For Which Designed:

F-16 a/b

Special Features:

Jshock strut assembly; modified and replaces nsn 1620-01-057-3428 p/n 2006600-101 steerable; 2 cotter pins nsn 5315-00-815-1405 ms24655-151; modified nsn 1620-01-162-7542 drag brace assembly p/n 2006500-107 and pivot pins

Reference Data And Literature:

T.O.4s2-80-504 and t.O.4sa6-32-3 and t.O.1f-16a-4-32 figure 11

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A520b0
