Cross Sectional Shape:

Double inside counterbore, straight face

Ring Style:

Concentric

Radial Wall Thickness:

0.1730 inches

Overall Width:

0.2800 inches

Standard Bore Diameter:

4.938 inches

Joint Style:

Diagonal joint

Criticality Code Justification:

Feat

Special Features:

Item is not csi but has critical feature such as magnetic particle insp

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A08400
