**Fabrication Method:**

Molded

**Major Diameter:**

2.338 inches

**Thickness:**

0.438 inches

**Minor Diameter:**

0.156 inches

**Friction Lining Material:**

Asbestos composition

**Lining Style:**

Clutch disk

**Application Type:**

Dry

**Features Provided:**

Rigid friction lining

**Surface Condition And Location:**

One side ground

**Fsc Application Data:**

Brake assembly, aircraft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A230a0
