Major Diameter:

Between 1.594 inches and 1.656 inches

Thickness:

Between 0.199 inches and 0.213 inches

Minor Diameter:

0.130 inches

Lining Style:

Clutch disk

Application Type:

Dry

Features Provided:

Rigid friction lining

Surface Condition And Location:

One side ground

Fsc Application Data:

Brake assembly, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A230a0
