Major Diameter:

Between 3.625 inches and 3.687 inches

Thickness:

Between 0.200 inches and 0.220 inches

Minor Diameter:

0.256 inches

Lining Style:

Clutch disk

Application Type:

Dry

Features Provided:

Rigid friction lining

Surface Condition And Location:

One side ground

Fsc Application Data:

Brake assembly, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
