Overall Length:

4.320 inches

Product Name:

515 series caliper disk brake

Special Features:

Sliding caliper, spring applied, hydraulic release type brake caliper; stored energy provided by series of Belleville springs; brake lining contact area 6.360 square inches; lining material is non-asbestos and lead free; lining thickness 0.220 inch; caliper is used with 6.000 in. Or larger disc with 0.500 in. Thickness; continuous duty pressure 2000 p.S.I.; caliper finish zinc chromate yellow; width 4.050 inches; height 3.190 inches; two 0.520 inch dia. Mounting holes; modified number 4 s.A.E. O-ring inlet port; threaded inlet port is 0.438 inch by 20 unf threads

Material:

Iron cast

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A52600
