Overall Length:

4.000 feet

Diameter:

0.062 inches rope

End Application:

F-18, acft

End Type:

Loop

Breaking Strength:

250.0 pounds

Criticality Code Justification:

Agav

Core Construction:

Wire

Prefabrication Form:

Straight

Product Name:

Lanyard assembly

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625 type 1a class 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0

Mil-std (military Standard):

Mil-a-8625 spec.
