Overall Length:
19.334 feet
Diameter:
0.50 inches stock
End Application:
Emergency lifting hoist
Thimble Quantity:
2 wire rope
End Type:
Terminal attachment both ends
Breaking Strength:
118.0 newtons
Core Construction:
Independent wire rope
Product Name:
Wire rope assembly
Special Features:
•
Coating is galvinized
•
Coating is galvinized
Coating is galvinized Material:
Coating is galvinized Material: Steel extra improved plow wire rope
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment:
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator:
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc)
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc) Shelf Life:
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc) Shelf Life: N/a
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc) Shelf Life: N/a
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc) Shelf Life: N/a Unit Of Measure:
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc) Shelf Life: N/a Unit Of Measure: Demilitarization:
Coating is galvinized Material: Steel extra improved plow wire rope Surface Treatment: Zinc wire rope Style Designator: 6 x 19 (wsc) Shelf Life: N/a Unit Of Measure: Demilitarization: No
