Seat Angle In Deg:

60.0

Compressed Length:

23.850 inches

Extended Length:

26.720 inches

Pressure Rating:

3000.0 pounds per square inch

Integral Valve Operation Method:

Mechanical

Design Characteristics:

Double acting tandem cylinder

Port Location And Quantity:

4 center section

Port Style:

Gasket seal

Port Thread Series Designator:

Unf

Port Thread Diameter:

0.437 inches

Port Thread Qty Per Inch (tpi):

20

Port Thread Class:

3b

Special Features:

Lh

Fsc Application Data:

Hydraulic system, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
