Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/1650-00-227-7646>

Overall Width:

4.000 inches

Body Outside Diameter:

2.000 inches

Compressed Length:

9.400 inches

Extended Length:

10.400 inches

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

Bearing type

Port Location And Quantity:

1 piston rod end

Fsc Application Data:

Hydraulic system, aircraft

Reference Number Differentiating Characteristics:

As modified by source control dwg no. 4h90234 fscm 98897

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
