Body Diameter:

1.750 inches

Body Inside Diameter:

1.016 inches

Filtration Rating In Microns:

3.0 absolute

Flow Direction:

Outside in

Wire Diameter:

0.160 inches

Mesh Size:

40.0

Design Type:

Nonreusable

Temperature Rating:

Between -65.0 degrees fahrenheit and 300.0 degrees fahrenheit

Bodylength:

4.437 inches

Filtering Media Design:

Mesh single filtering media response

Material:

Stainless steel container/cartridge

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Cylindrical w/out container

Specification Or Standard:

1 class

Fsc Application Data:

Hydraulic system c-135 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
