Body Diameter:

0.989 inches

Body Thickness:

Between 0.245 inches and 0.255 inches

End Application:

Oliver perry class ffg

Design Type:

Reusable

Filtering Media Design:

Molded single filtering media response

Material:

Copper alloy filtering medium

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Round (basically flat)

Fsc Application Data:

Missile launching system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A24000
