Special Features:

Between material steel qq-s-763 class 416 annealed, length 0.706 in., diameter 1.430 in. And 1.434 in. , head width 0.370 in. And 0.375 in. , shoulder 0.500 in. Diameter, undercut head 0.375 in. Wide 0.281 in. Deep, circular cross cut hole in center 0.250 in. diameter and 0.253 in. diameter with cross cuts 0.070 in. width and 0.075 in. width 0.044 in. Long extending from circle on both sides, hole in head 0.670 in. From center 0.062 in. diameter and 0.065 in. diameter 0.250 in. Deep

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A513b0
