Body Material:

Aluminum alloy

Overall Length:

5.031 inches

Overall Diameter:

1.313 inches

Pressure Rating:

3000.000 pounds per square inch

Operating Temperature Range:

-65.0/+170.0 degrees fahrenheit

Cubic Capacity:

40.000 cubic inches

Connection Facility Screw Thread Series Designator:

Unf

Connection Facility Thread Class:

3a

Connection Facility Thread Direction:

Right-hand

Reset Button:

Not included

Setting Lever:

Not included

Connection Port Quantity:

2

Port Connection Type:

Gasket seal female

Tube Accommodation Outside Diameter:

0.500 inches

Connection Thread Size:

0.750-16

Fsc Application Data:

Hydraulic instl mcdonnell dwg 33-9201-301, f101 aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T164-d
