**Body Material:**

Aluminum alloy

**Overall Length:**

5.031 inches

**Overall Diameter:**

1.313 inches

**Pressure Rating:**

3000.000 pounds per square inch

**Operating Temperature Range:**

-65.0/+170.0 degrees fahrenheit

**Cubic Capacity:**

40.000 cubic inches

**Connection Facility Screw Thread Series Designator:**

Unf

**Connection Facility Thread Class:**

3a

**Connection Facility Thread Direction:**

Right-hand

**Reset Button:**

Not included

**Setting Lever:**

Not included

**Connection Port Quantity:**

2

**Port Connection Type:**

Gasket seal female

**Tube Accommodation Outside Diameter:**

0.500 inches

**Connection Thread Size:**

0.750-16

**Fsc Application Data:**

Hydraulic instl mcdonnell dwg 33-9201-301, f101 aircraft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T164-d
