**Body Material:**

Steel

**Temperature Rating:**

20.0 degrees fahrenheit

**Compressed Length:**

9.320 inches

**Extended Length:**

11.480 inches

**Pressure Rating:**

Between 275.0 pounds per square inch and 325.0 pounds per square inch

**Integral Valve Operation Method:**

Pneumatic

**Design Characteristics:**

Double acting single cylinder

**Mounting Type And Location:**

Lug cylinder head end

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A34200
