Body Material:

Steel

Temperature Rating:

20.0 degrees fahrenheit

Compressed Length:

9.320 inches

Extended Length:

11.480 inches

Pressure Rating:

Between 275.0 pounds per square inch and 325.0 pounds per square inch

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Double acting single cylinder

Mounting Type And Location:

Lug cylinder head end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
