End Application:

F-15 aircraft

Functional Description:

Nha 742729

General Description:

Dimensions in inches 2.312 outside diameter, 1.996 inside diameter, part is open 45 degrees both sides of center line one side, there are 2-0.055 diameter holes through close to the opening, outer edge of retainer has 7 holes spaced at 65-46-19-0 degrees both ways from center line

Fsc Application Data:

Aircraft hydraulic systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
