Body Material:

Aluminum alloy and steel, corrosion resisting

Bore Diameter:

3.494 inches

End Application:

A-6e acft

Compressed Length:

22.250 inches

Extended Length:

31.750 inches

Pressure Rating:

3000.0 pounds per square inch

Special Features:

Stroke 9.500 in., instroke area 7.520 in., instroke volume 71.400 in., outstroke area 9.588 in., outstroke volume 91.080 in., length adjustment 0.188 in., port size 7/16-20 plus 9/16-18, rod 1.622 in. Dia., finish is anodized hardcoat and sulphuric acid, non-dyed, alodine 1200 chemical film, epoxy polyamide primer, acrylic lacquer, polyurethane, cadmium plate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
