Overall Length:

6.300 inches

Overall Height:

5.185 inches

Overall Width:

3.435 inches

End Application:

Used in a c130 acft

Accessory Components And Quantity:

Cover assembly 1; nozzle assembly 1; diffuser 1; side plate 2; top plate 1; tube 1; sleeve 1; nut 1

Product Name:

Ejector-heating nose landing gear uplock

Special Features:

Ejector assembly for anti-icing fluid for a nose landing gear uplock assembly

Material:

Stainless steel

General Description:

Material a321 annealed mil-s-6721 and 347 annealed mil-t-8606, type i, comp g347

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
