**End Application:**

B757 aircraft

**Special Features:**

3000psi operating pressure; shutoff flow between 9.2 and 10.8 gpm at fluid temperature of 70 to 110 degrees fahrenheit

**Supplementary Features:**

Consists primarily of a housing and fitting; slide, spring, flow control mechanism

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T164-d
