Maximum Operating Pressure:

3000.0 pounds per square inch

Product Name:

Pneudraulic manifold system

Special Features:

Pumping unit has 15 gallong oil capacity; control unit air pump rated for 3500 psi at 100 psi air pressure; control panel also has air regulator and guage three way shut off and metering valves pumping unit consists also of bleed valve sight gauge full length reservoir air 90 degree turn shut-off valve muffler

Furnished Items And Quantity:

1 fitting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A515e0
