Tempurature Rating:

204.0 degrees celsius

Product Name:

High pressure turbine clearance valve

Special Features:

Spring and pressure-loaded closed, hydraulically actuated, dual element modulating and shut-off valve; contains a 4th stage butterfly element and a 9th stage sculpted cylinder metering element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
