Voltage Rating In Volts:

24.0 dc

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Pipe Thread Size:

0.375 inches all working ends

Product Name:

Actuator, hydraulic

Special Features:

0.0321 displacement gear, 24 volt permanent magnet motor 2 wire, npt port threads, 0.375 npt filler port in reservoir, cylinder stroke is 15.7 long, system has dual internal pilot operating check

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
