General Description:

Aluminum alloy 6061-t6, qq-a-225/8, 0.555 in. Min, 0.575 in. Maximum id, 0.677 in. Min, 0.697 in. Maximum distance across flats, wrenching facility hexagonal, threaded internal 9/16-18 unf-3b per mil-s-7742, 0.050 in. Min, 0.070 in. Maximum hole centered on top of cap, three 0.042 in. Min, 0.052 in. Max locking wire holes equally spaced around periphery, anodize per mil-s-8625 type 2 class 2 dyed black, 0.380 in. Min, 0.400 in. Maximum I

Fsc Application Data:

Regulator, aircraft environmental system, b52

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
