Inside Diameter:

0.393 inches

Outside Diameter:

Between 1.240 inches and 1.260 inches

Material Thickness:

0.261 inches

Body Length:

Between 0.389 inches and 0.391 inches

Special Features:

4 slots equally spaced within 0.010 of true position ea side of flange; 4 lands on body; center bore microinch finish 32 aa

Material:

Steel

Material:

Steel

Style Designator:

Round, flanged

Fsc Application Data:

Turbine, aircraft cooling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23700
