End Application:

Convair 580

Operating Temperature Rating:

Between -40.0 degrees fahrenheit and 140.0 degrees fahrenheit

Maximum Working Pressure:

2000.0 pounds per square inch

Special Features:

Name per drawing: valve oxygen filler high pressure; metal material; ambient temp guage (non-operating) -65 degrees f to +160 degrees f;
weight: .18 lbs

Media For Which Designed:

Oxygen, gaseous

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A519k0
