End Application:

B-52 aircraft

Aircraft Location:

Engine air surge bleed inboard duct installation

Aircraft Mission Design Series:

B-52

Special Features:

Material 0-temper; heat treat t4; finish-12.61; consist of one flange; two duct halves

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-327 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
