End Application:

Pacer dawn

Special Features:

Outside diameter 2.150 in. Max; weight 1.0 lbs max; pressure 16.5 psig normal; water content 210 grains/lb of air including up to 50 grains of condensate/lb of air

Fsc Application Data:

Pressurized waveguide radar system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-b
