End Application:

C-130u aircraft

Criticality Code Justification:

Text

Functional Description:

Used in sensing duct for electronic component cooling

General Description:

8.000 in. L; 3.000 in. W; electrical power 28 vdc; weight: 1.25 lbs.; electrostatic sensitive (esd)

Fsc Application Data:

Aircraft pressurization system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
