Case Material:

Aluminum alloy

End Application:

C-17a aircraft

Inclosure Type:

Encased

Power Source:

External

Criticality Code Justification:

Feat

Special Features:

Electrostatic discharge sensitivedevices

Functional Description:

Loadmaster environmental control panel

Supplementary Features:

Cargo compartment temperature control (peu-139a)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
