End Application:

Phaos (parachutist's high altitude oxygen supply system) mask assembly, cage 57172

Design Type:

Mouth and nose

User Designator:

Parachutists

Oxygen System Type:

Pressure demand

Mask Size Designation:

Extra long

Special Features:

Inc. Reducer, on/off valve, relief valve, gauge; light weight mask inc. Diluter/demand regulator, auto dilution shut off; mask eliminates hoses and connectors on front torso for freedom of movement

Supplementary Features:

Conforms to all applicable military specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T282-m
