**End Application:**

C130-j hercules

**General Description:**

Yhermetically sealed thermister sensor which produces a c hange in electrical resistance with respect to temperature, temperature range minus 65 to 210 degrees f, the connector is rated to 200 degrees c, resistance at 25 degc is 10k

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
