Maximum Operating Pressure:

1800.0 pounds per square inch

Department Of Transportation Cylinder Identifying Number:

3aa1800

Overall Height:

22.500 inches

Cross Section Outside Diameter:

Between 3.500 inches and 3.620 inches

Cylinder Style Designator:

Cylindrical type

Shatterproof Feature:

Not included

Part A Color Code:

Green

Part B Color Code:

Green

Body Color Code:

Green

Color Coded Gas Type:

Oxygen

Capacity Rating:

11.100 cubic feet

Product Name:

Emergency oxygen portable crew demand and constant flow airline type

Special Features:

This item comes with strap attached to cylinder with two clamps and furnished with buckle (strap p/n 178005), external cylinder finish is light green, operating temp range = -65 degrees to 160 degrees, cylinder proof pressure 3000 psi, use with demand type crew masks with 173017 connector, for use with 174070, 174071, and 174072 full face smoke masks. Do not use with non-orificed type passenger masks

Type/model Designation:

176965

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T162-b
