Overall Length:

7.500 inches

End Application:

Uh-1

Side For Which Designed:

Both sides

Criticality Code Justification:

Agav

Product Name:

Inavy: duct-air

Aircraft Location:

Duct-air

Aircraft Mission Design Series:

Uh-1

Special Features:

Body-fiberglass impregnated with chloropene; spring steel helix and fiberglass cordage; ends-soft-same as body without wire or cordage; plies-same as body with wire and cordage; duct-air, flexible, helix wire supported with 1.500 inch id, 3.500 inch long, two 1.500 inch soft ends.

Material:

Rubber chloroprene class cr and glass fiber and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11800
