End Application:

B-2 aircraft

Unpackaged Unit Height:

6.000 inches

Product Name:

Cover insulated, duct joint coupling

Special Features:

Item has a 2.58 in radius interior opening; measures 6.00 in high and 7.20 in wide at the top and bottom; made from silicone rubber impregnated 2 ply/min/ glass coth per mil-c-9084 coated with an aluminized reflective material; insulation material is .19 in thick; cover external surface temp not to exceed 450 degrees f when used with the bleed air duct system air temp at 800 degrees f and a maximum ambient air temp of 350 degrees f with natural convection; cover is removable and fluid proof.

Material:

Silicone rubber and glass fiber

Material:

Rubber silicone class q and glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A016a0
