Overall Length:

132.000 inches

End Application:

Defender aircraft

Product Name:

Aviation sceet ducting

Aircraft Location:

Air duct

Aircraft Mission Design Series:

Defender

Special Features:

Aviation ducting; inside diameter 2.75inches; color-red; product code 8901-01104; standard length 11feet; inside bend radius 0.75 to 1.06inches; burst pressure 148 psig; crush resistance-pounds per foot-340; operating temp range -80deg f to +550deg f; support-copper-coated or bronze-plated spring-steel-wire helix bonded between the liner and cover material; liner and the cover are fiberglass fabric impregnated and coated with silicone rubber compounds; cord is fiberglass coated with silicone

Material:

Glass fiber and rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
