End Application:

Special aircraft and engine tool and support equip/parts

Layer Thickness:

0.500 inches all layers

Product Name:

Insulation, fiberglass

Special Features:

Thermal conductance, c equals 0.48 btu/hr at 75 degrees man temp. Meets nfpa 90aand b vendor part number; fiber glass duct liner 0.500 x 47.025 x 100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T230-b
